Ordinances: Ordinance 02-01-22 was introduced at the January Town meeting. It is an Ordinance concerning the purpose of amending the adopted budget to recognize American Rescue Plan Act revenues received, and to appropriate $375,000 grant funds for expenditure for grocery store development. Following the reading of the Ordinance and a summary of public comment received prior to the meeting, the Council moved into Council discussion, followed by public comment. *(Please note, all public comment received prior to the Town meeting and the summary are attached. Submissions highlighted in yellow were duplicated on another list or email. The summary will not include any comments received during the meeting. The comments included in the minutes are not verbatim to technical difficulties we were unable to save comment received from those who attended virtually and provided them via the chat feature. There were two in attendance who expressed their support of the ordinance and one who was opposed.)*

The Council was pleased how many comments were received since it showed so many people have a vested interested in the Town.

Vice Mayor Sitoula has been honored to represent the residents of the Town and he too has been impacted by not having a grocery store in the Town. Vice Mayor clarified that he is not against having a grocery store in town, but it is a question of what kind and how. There have been things stated online about him supporting the Dollar General, but he clarified that he does not actually know them, but he wishes he did because he has valued having that service. The Town received 2.8 million dollars and our general fund is just 1.7 million dollars. When a windfall of that nature happens, a rising tide should lift all boats not just one. Vice Mayor Sitoula discussed the additional aspects of the project including low-income housing units and a parking lot. Vice Mayor Sitoula spoke about the strides made by the Council over the last 6 years. The Council

gave the Velocity Center $5,000 and gave USBTA no funds at this point. The residents trust the Council to be good stewards of the Town and its funds. Vice Mayor Sitoula has issues using taxpayer funds for the financial gain of another individual. Vice Mayor Sitoula suggested the need for studies and holding Community meetings to get more input on what the residents are looking for in a local grocery store. Vice Mayor Sitoula said to pray that the elected officials make the right choices for the Town otherwise it will be oasis for one business and desert of the rest of us.

Mayor Paulin thanked everyone for attending and for all who provided comment beforehand. Mayor Paulin spoke about how many years it has been since there was a grocery store located in the incorporated town. Mayor Paulin feels it is no coincidence that you see the obesity rates in the zip code increasing since there is not access to fresh foods and fresh vegetables. Mayor Paulin stated that part of the purpose of the ARPA funds is to address food disparity. Mayor Paulin stated that the housing proposed is affordable but not low income. Mayor Paulin feels that we need to address the food disparity in the area and having fresh food and vegetables is absolutely necessary.

A resident asked what the funds being given will fund. Mayor Paulin explained that the money will be used to facilitate development of the grocery store, to include the purchase of properties behind the proposed store for the development of a parking lot.

The Council moved into public comment.

Jamie Toribio – Raymond Avenue: Mr. Toribio spoke about why he loves Indian Head and why he would like to see improvement and being a business owner in the Town. Mr. Toribio does not understand why anyone would oppose this opportunity to see the Town progress and he would be happy to have a closer place to shop. Mr. Toribio feels there are only three reasons people would be opposed to this project, people that have special interests not to have the facility, people that are persuaded to be opposed, and individuals that don't want to see the Town improve. Mr. Toribio feels this investment will give the Town momentum and agreed with the Vice Mayor that transparency is important and gave the example of additional information that was not known such as the housing and parking elements of the project. If this type of development doesn't happen, Mr. Toribio would be ready to take his business outside of the Town.

Brian Klaas – Mr. Klaas read prepared comments, that are also included in the attached record of public comment. Mr. Klaas also suggested the possible use of the old PNC building for a grocery store, which is already owned by the Town, and he spoke about a Hancock Farms location that is a third the size of the PNC building. The old PNC location would have ample parking. Mr. Klaas appreciates all the momentum and all the hard work being done in Indian Head. Mr. Klaas then spoke about an incident which occurred after the February Town meeting. Mr. Klaas stated he is not the owner of the Dollar General, but a local business went after the owners of the Dollar General, which he assumes because is they are his in-laws. The building where the Dollar General is located, sat vacant for many years, and years ago when the residents couldn't go local to get a loaf of bread or a gallon of milk, the McWilliams sought out a business to address those needs and invested their own funds to bring the Dollar General to Town. Mr. Klaas spoke about a local business to go on their business social media page to disparage the McWilliams and everything stated was a lie and he felt what was done/said was disgusting.

Jennifer Legacy – Potomac Avenue: Mrs. Legacy shared her perspective as a new resident and a community leader. Mrs. Legacy spoke about the time spent speaking to the community to find out their needs. Something they have heard over and over was the lack of a grocery store. Once they began Bridge Church, one of their goals was to help meet the needs of residents where they were. Bridge Church brought in a licensed nutritionist to speak, to help equip moms on how to make healthy meals for their kids. Being in an underserved community makes that a problem. The truth for many residents in this community is that they do not have the ability to leave the area for groceries. Mrs. Legacy spoke about the financing of the project and the need for the additional parking area which will serve more than the housing units and grocery store. Mrs. Legacy thanked the Dollar General for the service they do provide and their efforts to provide what the Town needs. Mrs. Legacy encouraged the Town Council to approve the budget amendment.

Rick Legacy – Potomac Avenue: Mr. Legacy stated he appreciated Brian Klaas's comments, and he feels that a grocery store coming into Town would be a great compliment to what the Dollar General provides. Mr. Legacy spoke about his experiences during deployment to third world countries where things like fresh water are not always guaranteed. Mr. Legacy feels the Town of Indian Head deserves more than just surviving, it deserves to strive.

Marilyn Steel – Port Tobacco: Mrs. Steele stated she was speaking to provide clarification on some things that were said which are not true. Mrs. Steele stated they were asked to bring a grocery store to Town by any means necessary and they recruited as hard as they could. The demographics of this area would not support a larger store and it needs to be built in a way to make it sustainable. This project is a mixed use of the Algonquin building. It is meant to renovate the entire space. There will be 7 workforce affordable housing units above the grocery store. Mrs. Steele stated the purpose of those units is to support the cost of the grocery store and to help sustain it. This project is going to be employee owned. This project will cost 3.75 million dollars and the Steele's/RXBSA has put in $100,000 of their own funds. Mrs. Steele stated that no one personally attacked the Dollar General. The business is not meant to be in competition with other businesses. There are nine other people who have nothing to gain from this, but they have been volunteering their time, effort, and expertise towards this project. Stated they have no issue providing information to Vice Mayor Sitoula again if he needs further understanding of how the project will work. There will be a community garden and green space included in the parking lot area. Mrs. Steel shared information on her and her husband's experience in food service and business. Mrs. Steele feels the grocery store will bring jobs and livability. Mrs. Steele stated she doesn't want to do this, but she is driven to do it and feels it is the right thing to do.

Randy Watts –Raymond Avenue: Mr. Watts discussed his enjoyment of living in the Town. Mr. Watts has the means to travel to shop, and he also shops at the local Dollar General and Dollar Tree and he does not see how a grocery store that will provide meat and produce will have an impact on the Dollar General. Mr. Watts thanked the Council for the responsibilities they have taken on. Mr. Watts stated that something Mayor Paulin ran on was wanting to bring businesses in Indian Head. He appreciates the dedication to their fiduciary responsibility, but there is a saying, if you build it, they will come and expressed the need to start somewhere. Use common sense and integrity and do what you think is best for the community.

Charles Johnson –Indian Head Highway: Mr. Johnson expressed his support for the budget Ordinance and the grocery store initiative, and stated it is the Councils responsibility to stand up for the residents.

Vivian Elder – Mattingly Avenue: Mrs. Elder asked to hear from Mayor Paulin on exactly what the money being put into the project will be spent on and what precedence it will set. Mayor Paulin stated it is for grocery store development which could mean the grocery store itself or parking behind it. Mrs. Elder asked where the housing came into it. Mayor Paulin said the rentals are supposed to subsidize the grocery store itself. Mrs. Elder asked what precedence giving this money will set. Mayor Paulin stated it would only create a precedence if the Town were to come into $3 million again. From Mayor Paulin's perspective, if the government gave the Town this much money again, he would be open to providing further business assistance. This is unprecedented funding, and he feels unprecedented actions should be taken. Mrs. Elder asked Mr. Klaas and Vice Mayor Sitoula if their concerns have been assuaged. Both said they had not.

Ongisa McKenzie – Executive Director of Southern Marylanders for Racial Equality and Commissioner Candidate: Ms. McKenzie asked how the County is supporting the Town because they should not be bearing this brunt alone. Ms. McKenzie understands the role of government and the possibility of a slippery slope. In Ms. McKenzie's perspective she is in favor of the proposed budget Ordinance and grocery store project. Ms. McKenzie asked how the Town can partner with county and state government to bring in more growth. Mayor Paulin said this initiative has been supported on all levels of government and Indian Head revitalization has been supported on many levels. Mayor Paulin spoke about the funding the Town has previously received from organizations and the Town's constant search for further partnerships.

Pam Frank – Military Alliance Council: Ms. Frank clarified that the State of Maryland has been very generous to Indian Head. Spoke about the financing for the MD Technology Center, the Velocity Center, demolition efforts, and they have awarded the grocery initiative $200,000.

Mayor Paulin stated that all comments submitted virtually will be part of the record as well as all comments received prior to the meeting.

The Council moved into final discussion.

Councilwoman Grumbine asked if the apartments have an issue being rented, will affect the grocery store. Mrs. Steele does not feel that would be an issue.

Vice Mayor Sitoula stated the importance of having so many people present to discuss this issue. Vice Mayor Sitoula feels that the use of the funds should be clarified. As a public servant he is not here to oppose a grocery store. The problem with government funding is when it runs out the projects stop. Vice Mayor Sitoula spoke about his experience growing up in a third world country. Vice Mayor Sitoula stated that this is leading to a slippery slope and asked what the Council is doing for the local businesses who fought to stay open through the pandemic. Vice Mayor Sitoula feels this is setting a precedence. Vice Mayor Sitoula thanked Mark and Marilyn Steele for their enthusiasm to bring this about but stressed the need to do this correctly.

Mayor Paulin stated that the Ordinance is very clear and re-read it. The funding has to be used for grocery store development.

Mayor Paulin made a motion to approve Ordinance 02-01-22. Councilwoman Grumbine seconds. Voice vote, 2-Aye 1-Opposed. Roll vote. Councilwoman Grumbine – Aye, Vice Mayor Sitoula – Opposed, Mayor Paulin – Aye. Ordinance 02-01-22 is approved by roll vote.

Ginger Foster went over all the information that will need to be given to as part of the requirements of the Treasury.

Subject: RE: Support ordinance 02-01-2022 - Indian Head needs a grocery store

Ms. Brady,
Thanks for your response.

The irritation of forgetting a food item when visiting family and the inconvenience of not having a grocery store to purchase last minute items is bothersome. I've experienced that scenario.

I hope the ordinance passes.

Best,
Dr. Via

Subject: Support ordinance 02-01-2022 - Indian Head needs a grocery store

Greetings Town Council,

I visit Indian Head frequently and am appalled that there's no local grocery store. Currently, residents seeking groceries have to travel a considerable distance for food.

I'm curious regarding council people who would deny residents the ability to obtain fresh produce or meats.

Grocery stores are entities, like school and healthcare are basics that any local government should support and provide its constituents. The absence of these systems promotes disparities.

I request you support budget ordinance 02-01-2022

Best regards,

Kamala Via, DNP, CRNP-PMH

Subject: Support of Town Grocery Store

We are Andrew and Michele Painter and we live at 47 Mattingly Avenue. We fully support ordnance 02.01.2022 to bring a grocery store to the town of Indian Head.

For over 20 years residents have had to travel out of the town to purchase fresh food. In those 20 years, the town dynamic has changed. There are large communities of residents don't have the means to travel to Bryans Road or LaPlata groceries. This gives them extremely limited healthy food options within walking distant from their homes.

Additionally, the Navy base does not have a commissary. Having to travel to buy groceries makes the town less appealing for the military families and they end up moving out or never settling here in the first place. This leads to significant loss of revenue for Indian Head.

Give the residents what they have been pleading for. Keep the business and revenue in the town. Please vote yes on budget ordnance 02.01.2022.

Thank you.

Subject: Bring Indian Head a Grocery store

Hello,

We are the Peterson's at 106 Beecher Ave, Indian Head, and would really love to have a grocery store again. We would like to express our support of ordinance 02-01-2022. We do have concerns about appropriate parking, however our vote is still leaning toward having a full grocery store again. How do we obtain the ordnance information? We are planning to attend the town meeting on March 7, 2022 to find out more.
We are in favor of having a grocery store as the only other nearby store is Food Lion in Bryan's Road, and they are a few miles away. Dollar General and Dollar Tree, which are in town, do not carry healthy food options, and no fresh meat or produce. There are enough residents already to keep a grocery store going, and there will be more with the new homes being built. We are watching great improvements in the town so far, we believe our own grocery store would only make for better options for IH, for the Navy base, IH residents, and new residents and businesses that are forthcoming. There are plenty current residents that lack proper transportation to go to a grocery store with healthy food options, and would be able to walk to one located in town. The sidewalks do need improving, but there have been some improvements in that area already, and believe there will continue to be more.

Best Regards,

Troy and Elaine Peterson

Subject: Grocery Store in Indian Head

To whom it may concern:

My name is Elizabeth Saam. We have moved to the area in the past year. My family of three live on Mount Aventine Rd. While we do not reside within the town limits, we do have an Indian Head zip code and mailing address.

We truly enjoy the area and want to call it home while we are in the DMV. However, one of the downfalls to the area is the necessity to drive a ways to get fresh groceries. The Food Lion in Bryan's Road supports most of my families needs, but it leaves little room for choice and option for our family, especially when it comes to fresh produce. Most families in this area are forced to shop at the Food Lion, leaving stocks low in general, let alone when the food industry is faced with shortages. Many weeks my family has had to go without a given food item (such as chicken, which Food Lion did not have on Sunday 2/6/22) or I have had to drive an additional 10 minutes each way up the road in order to purchase groceries in PG County at the closest Giant - taking my money outside of the local economy.

It is my understanding that a vote on whether to bring a grocery store to Indian Head is forthcoming in the next Council meetings. I would plead that a grocery store would be extremely beneficial for the local community we now call home. When possible, my family works to support local businesses, such as those in downtown Indian Head. A local grocery would allow us to do that even more and would encourage more young, growing families to invest in homes in the Indian Head area - thus bringing in more business and bolstering the local economy.

We thank you for all you do to keep the town thriving and encourage you to strongly consider supporting a local Indian Head grocer.

Thank you,
Elizabeth Saam

My husband and I live in Marbury, Maryland. To go to a grocery store we need to drive to Bryans Road, Accokeek or LaPlata. We would definitely support a grocery store in Indian Head.

Indian Head has been a food desert for years, and the town residents deserve and NEED a grocery store.

Please vote yes on this very important ordnance.

Great morning Town Council,

I enthusiastically write in support of ordinance 02-01-22 and bringing a grocery store back to Indian Head.

I visit friends in Indian Head and used to travel to Naval Support Facility Indian Head frequently for work. I know there is a lack of access to healthy foods in the area. Rather, residents travel five miles to the nearest grocer or they go to a national discount chain store that happens to sell packaged, high-sodium products.

Having access to and options for healthy food choices contributes to better health outcomes for all residents and should not be reserved only for those with more resources. Healthier residents are better for Indian Head and society writ large.

Please support ordinance 02-01-22.

Respectfully,

La Tanya Simms

Subject: Indian Head Grocery Store
Attachments: Loan Approval IH Grocery.pdf

My name is Brian Klaas and I was born, raised, and resided in Indian Head until I joined the Navy back in 1984. I returned to Indian Head in 1996 after receiving my Honorable Discharge from the Navy and receiving my Bachelors Degree in Economics from the University of Central Florida. I started and ran a successful mortgage lending business in Indian Head for 20 years and currently own a number of properties in the Town of Indian Head. Indian Head is a great place to live, learn, work and play. I truly love this town.

I am writing this letter to state publically I am a strong proponent of a grocery store in Indian Head.

However, the reason for this letter is also to voice my concerns regarding Ordinance No. 02-01-22. As I understand this Ordinance, this is increasing the amount previously approved by the Town Council for GROCERY STORE DEVELOPMENT from $60,453 to $435,453, an increase of $375,000. As I researched more, I found this project is more than just a grocery store. This project also includes Affordable Residential Housing Units, the acquisition of the Algonquin Building, the acquisition of 2 residential properties, all under a Public Private Partnership Agreement entered into by a single stock holder and the Town of Indian Head. I've searched the Town's website looking for the PPP Agreement and have been unable to find it. The terms of this agreement should be made public for all to review, as large sums of taxpayer money are being used to finance this project. I've attached the Loan granted to RXBSA Properties on 9/15/2021 from the Maryland Board of Public Works referencing this partnership and some of the aspects of this project.

I believe the Town of Indian Head is being given a once in a lifetime opportunity to improve our community with the funding provided under the American Rescue Plan. I also believe these funds should be for the benefit of all residents and contribute to the sustainability of our Town. Our infrastructure has many needs and it is imperative we not squander this opportunity. The reasons we do not currently have a grocery store in Indian Head are many and have been a headwind for many years. This isn't an issue where throwing money at a problem fixes the problem. As everyone that has tried to attract a grocery store to Indian Head knows, it's mostly about rooftops, and Indian Head has less than 4000 residents. Coupled with changing shopping patterns, the fundamentals for establishing a sustainable grocery store haven't changed, and this is huge risk with taxpayer dollars. It is my hope that studies and due diligence will be conducted before committing such a large increase in town funds to this project. Some questions I have regarding the increase in funding for the grocery store are:

What are the terms of the Public Private Partnership? What are the responsibilities of each partner? Who will own the building, the grocery store, the apartments, and the parking lot? Who will operate the grocery store? Will it be the same entity that owns the rentals? Does the operator of the Indian Head grocery store have any experience operating a grocery? Has the Town been presented a detailed business plan to ensure long term viability of the grocery store as a condition of funding? Has the Town been given a budget to determine if this increase in requested funding is needed? Will the funds requested be a grant or a loan? In the event the grocery store closes, will the town be able to recover their investment? In the event the grocery is not successful, will there be any safeguards established to ensure this project does not ultimately become a large apartment complex? Have there been any recent studies to determine the feasibility of an IGA model grocery store in Indian Head and if the grocery store is being located in the best location within the town limits? The town owns the old PNC building. Would this be a more centrally located area to establish a grocery with better foot traffic, existing adequate parking, no requirement for acquisition/demolition, etc.?

I appreciate all the hard work and the positive momentum we're experiencing in Indian Head. I also truly appreciate you allowing my input on such an important issue. Thank you again. Brian Klaas

9. DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT
Neighborhood BusinessWorks Program

Recommendation: That the Board of Public Works approve the Department of Housing and Community Development's request to provide a loan for the project described below.

Loan Authority: Neighborhood Business Development Program
§§ 6-301 through 6-311, Housing and Community Development Article Annotated Code of Maryland; COMAR 05.13.01

Established in 1995, the *Neighborhood Business Development Program*, now operating as *Neighborhood BusinessWorks (NBW)*, is a Smart Growth tool for revitalization through business creation or expansion in designated revitalization areas.

Borrower: RXBSA Properties, LLC

Project Property: 4145 Indian Head Highway., Indian Head 20640, Charles County

Loan Amount: $805,000

Fund Source: MCCBL of 2021. *Provide funds for grants and loans to fund community-based economic development activities in revitalization areas designed by local governments*. Item SA24(B).

Collateral: First lien position Deed of Trust on project property

Project Description: RXBSA Properties, LLC is the real estate subsidiary of Bolans-Darby Partners, Inc. In addition to RXBSA Properties, Bolans-Darby also operates a small food service known as Mancuso Foods. Ms. Marilyn Weimer is the single stock holder. RXBSA Properties, LLC has entered into a public-private partnership with the Town of Indian Head to redevelop the Algonquin Building located at 4145 Indian Head Highway. The building will be redeveloped into a mixed-use commercial space anchored by a small grocery store. The applicant's food related subsidiary (Mancuso Foods, LLC) has formed two separate entities to lease and occupy the commercial space. As the anchor tenant, Mancuso has established a company to operate a grocery store d/b/a Oasis Fresh Market. It will adopt an Independent Grocers Alliance (IGA) platform that offers a programmatic platform that allows flexibility in crafting a unique store to serve neighborhoods in which they operate. IGA's mission of supporting local, family owned business aligns with the revitalization work in Indian Head.

9. **DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT** (*cont'd*)

Project Description (cont'd):

Additionally, a company has been formed to operate an ice cream shop by the name of Papaleo's Ice Cream in the remaining retail space. Papaleo's will offer soft serve ice cream that is high quality and affordable. It will also feature premium ice cream made by the Taharka Brothers Company in Baltimore.

The proposed project will revitalize the vacant building, renovate adjacent unkempt properties, and provide retail services on the street level along with five affordable residential units on the second floor. Buildings on adjacent lots 4155 and 4109 Indian Head Highway will be demolished and repurposed as a multi-use parking area. A Memorandum of Understanding (MOU) is being implemented by the Town of Indian Head to undertake the repurposing of the adjacent lots to ensure sufficient parking and infrastructure.

The borrower/developer is committed to renovating the building with processes, equipment and products that align with energy-efficient improvements. All existing exterior windows will be replaced with energy star double pane, low-e glass. They will all meet NFRC ratings. All interior lights will be energy star certified LED light fixtures and bulbs. The apartment bedrooms and living rooms will be equipped with ceiling fans. All apartment appliances will be energy star certified. The entire building will be equipped with ductless energy star certified mini-split heat pumps. All toilets will be high efficiency toilets which use modern low flush technology for reduction of water usage. The commercial refrigeration units, wherever possible, will be energy star certified. All state standards for internal insulation of ceilings (R57) and walls (R-21) or higher will be met.

Without support from the Neighborhood BusinessWorks program the project would not be possible. The completion of the project will have significant impact on employment in the community by creating approximately 20 new jobs. The construction, maintenance, and upkeep of the building will also provide employment opportunities for the town residents. Once improved, the location will further attract and retain businesses, creating synergy in the community.

Indian Head needs a grocery store! Being an Indian Head business owner, I often find myself having to pick up groceries on my way home to Nanjemoy. My only options are to drive to Bryan's Road or La Plata. This can be pretty inconvenient considering both of those towns are not on my route.

There is nothing bad that can come out of opening a grocery store in Indian Head. It will create jobs, allow residence that don't have a vehicle to get groceries and turn a 15 minute drive to the grocery store (for residence with vehicles) into a 2 minute drive to the grocery store.

The building is empty anyway; let's increase its curb appeal, make it a grocery store and increase Indian Head property values

I strongly support the grocery store initiative being planned for the old Algonquin Building. This has high value to the community and meets a long identified gap. It is shameful that any council members might oppose this public private partnership in deference to a chain that has been here for years and had ample opportunity to be part of the solution, but declined to take any action and now chooses to blockade the effort. The proposed grocery store includes additional investments and multi-improvements that will greatly advance the town's attractiveness and provide value to the town government and citizens alike.

It is totally unreasonable for this population of people to have to travel outside the region to purchase good, nutritional food. Additionally, there are many elderly people in Indian Head that don't have the ability to drive out of town. Twenty-five years without a decent grocery store is just unacceptable. Food Lion is the only grocery store in western Charles county and it's just too small to provide for the amount of people in western Charles county. They had problems keeping shelves stocked before COVID came to town! I drive to Giant outside the county in Accokeek. It's a larger grocery store and most the time I can get what I need there. The population in Indian Head has grown substancially over the past 23 years yet we still have no grocery store. Dollar General is not a grocery store! It's better than nothing, but Indian Head residents need an actual grocery store, not another dollar store.

If yes, tell us why you support a new Indian Head grocery store (optional):	We lack a variety of grocery options on our neighborhood. Food Lion is our only local store giving them virtually no competition. We need healthy options for our residents, our older and young residents deserve that much from us. And with the future growth of Indian Head, the growth of both residential neighborhoods currently in construction, and the Navy base opening up office space in the old A&P, and the already open Velocity Center across the street, we need more grocery store and restaurant options opening up around town. I live directly behind the Velocity Center and can watch the activity happening at the college from my home office. And the activity of classes on the building is increasing and I see large groups of cars arrive for a few hours multiple days a week. And I expect that as COVID subsides, the activity is only going to improve. So please give your support for a local grocery store. We really need it. And now it's the time for it to come back to Indian Head.

While it may seem like nothing to have residents travel to La Plata, Bryan's Road & Waldorf for their grocery needs, there are many residents who can't go that far; and the Family General does not provide healthy options for food. As we develop more land and put up housing developments, having a true grocery store that doesn't require a 15+ minute drive will be a huge draw and contribute to our local economy.

I work in Indian Head, and live nearby- when going home, I have to drive 10 miles out of my way to be able to purchase fresh meat and produce to prepare a healthy meal at my nearby home. Clarity Coffee House uses Instacart to buy it's milk. An inefficient and costly alternative to purchasing it's dairy needs at a locally owned grocery store in Indian Head.

If yes, tell us why you support a new Indian Head grocery store (optional):	As a retired military member I know how important access to fresh produce, meat and dairy products is for a family. The Marines and Navy personnel have limited options on base and the residents who live in the Town of Indian Head have been without an option for way too long. The Town of Indian Head has been trying to make comeback since I moved to Chatles County in 1989 and is at a crossroads that could lead to prosperity and growth or back to the same old struggle gor survival as yesterday. There are people who want to help, who want to see Indian Head thrive! But they need to have equal buy in from the Town and residents to make it happen. A fully functioning grocery is just one piece of the puzzle to rebirth and regrowth. But it is a critical piece. Without a local grocer, Indian Head will struggle to gain other businesses, other key pieces to the puzzle that will increase the tax base and bring additional growth. I have been volunteering my time over the past six months to help bring this initiative to a reality. I have nothing to gain other than seeing others lives made better. I firmly believe that Oasis Market, slated to be an employee owned and operated business is needed and necessary. I highly recommend that Town Government use whatever influence and financial support available to it in support of this project. Together we can make Infian Head a place every resident can call home. Let's work together now to take a big step forward.

If yes, tell us why you support a new Indian Head grocery store (optional):	I am a long time county resident. I resided in Indian Head years ago and now reside in the La Plata area. I have friends who do live in Indian Head. Providing food for your family should not take hours due to the distance, traffic on the roads and in the stores and limited options. All residents should have decent "local to them" healthy food options. Indian Head surely doesn't need another Dollar General store or another hotel/motel. Take care of those who pay the taxes that keep our county progressive equitably. As a resident in La Plata who has choices between 3 grocery stores, 2 big chain stores and multiple food options, I have noticed a greater influx in traffic to our local stores. The residential buildings continue to be built but the roadways and groceries convenience's are limited. Providing locally for the town of Indian Head what the rest of us enjoy throughout the rest of the county only seems logical to me.

Indian Head not only needs a fresh new store for the current residents but bringing new businesses to Indian Head will also encourage the development of other new businesses as the population will grow. It can be quite a drive to get to the nearest store that has both quality meat and produce and this is a chance to close that gap. This new grocery store may also help inspire residents to cook healthier, fresh meals at home now that they don't have to drive 15+ minutes to get an ingredient they may need. This will also create jobs that residents won't have to drive 30 minutes away for. This grocery store is a great way for Indian Head to close the gap in more ways than just one.

If yes, tell us why you support a new Indian Head grocery store (optional):	This question seems ridiculous! Why don't we have a grocery store??? There are thousands of people who live here & new houses are still being built...but there is nowhere to shop & especially nowhere to buy groceries! Let's see... you approve & allow an organization that tests bombs, which causes things to shake even more in our homes to be here, but no grocery store!!!!! If no one lived here would there be a town!!!! Make decisions to serve the PEOPLE OF INDIAN HEAD & not someone's pockets!!!

Also many people in the town are unable to get to the grocery store in Bryan's Road easily. To have a store within walking distance would be a great asset and convenience. If we had more to offer we would attract more people making it a more vibrate community.

It would be interesting to see if we can progress to a higher level of quality, fresh foods, eating, lifestyle...kind of like where La Plata is headed. This significantly effects residents who do not have transportation and the elderly who are unable to travel. In order for a town to thrive,and residents to live healthier, you must have a grocery store which provides fresh food choices. "An investigation by ProPublica and the New York Times finds that dollar stores are a magnet for crime, perpetuate food deserts, and depress neighborhood job markets."- Dmagazine.com August 17, 2020

A grocery store helps with more than just the ability to have FRESH food but especially for those who don't have transportation it is an opportunity to shift our community. An opportunity for employment especially for local residents that can walk to work and have a fair wage. It is an opportunity to begin to address health crisis, we currently have Dollar General and Dollar Tree which are great but the food available are full of additives and sodium, what does that do to our health and what does it teach our children? Causing the cycle to continue. It will provide the military base that has no commissary a place close to get fresh groceries. The grocery store is just a start to Indian Head to begin thriving again.

There is such a high need for quality produce and meats in this area. The community is very diverse with the military families, low- income, middle class and a large group of senior citizens. There are 2 dollar stores nearby but the closest grocery store is 10 miles away. Nanjemoy, a neighboring city is nationally red flagged for one of the highest maternal and infant mortality rates. The rates of premature births are also very high. This community and its neighbors would benefit from a local store that could provide organic, locally sourced produce and meats. The jobs oasis would provide could dramatically impact many families.

Please support this grocery store! I work with BRIDGE Church, and utilizing medical care on NSWC Indian Head I spend between 2-4 days a week in the town.

As a military family we were stationed there (2002-2006). We left because it was too much strain to work in DC drive home to get our 4 kids and then still drive another 30 minutes to Waldorf for groceries. We moved in 2003.

Since then, we still work in DC and are members and on staff of BRIDGE Church. In order to support my work I have to carry 2-3 meals the days I work with the church because there are too few options supporting my allergy restricted diet. If that's not possible, I must drive from DC to a restaurant that is out of the way THEN to BRIDGE.

I also know of several families without vehicles to get to Waldorf for groceries. Their only stores are Dollar Tree and Dollar General. Currently they only offer food that is not nutritionally healthy. This contributes to the divide between those who have and those who do not. Access to quality food should be a simple yes for the Town Council.

Please empower this effort and support military families and families without reliable transportation to feed their families quality food.

Thank you.
Pastor Jessica Strong
BRIDGE Church Connections Director

If yes, tell us why you support a new Indian Head grocery store (optional):	I am the current Vice Chair and Director of the Indian Head Center for the Arts and I truly believe we need a grocery store in this community. It is unfortunate to think of how many families, especially low income or elderly, are relying on food from dollar stores if they are not able to travel to a nearby "village" like Bryans Road or town like Waldorf. I lived in Indian Head and now reside in Bryans Road. One of the reasons we moved close by was to have better access to grocery stores and other amenities as we had our young children. Please support this opportunity to bring healthy food options to Indian Head.

If yes, tell us why you support a new Indian Head grocery store (optional):	As a retired Marine from NSW Indian Head, there has always been a need for groceries in the Indian Head area. Fresh food provided to the residents of the area is exceptionally important to developing solid eating habits for not only the elderly but for the youth living here. Dollar tree and the dollar store does not provide the nutrients needed to teach the youth how to properly cook and make nutritious meals for themselves. There are numerous families on Indian Head that are required to travel to La Plata or Waldorf in order to go to a "normal" grocery store. That is unacceptable considering the drive. And their is nothing "normal" about dollar tree and dollar store when it comes to nutrition. Have a heart, have concern about the residents of the area.

Indian Head is way over do for a new grocery store, it's just what we need it's a hassle for the people of Indian Head to drive to food lion in bryans rd just to pick up something for dinner and if you forget something which I have done numerous times we have to drive all the way back to bryans rd to get something that the dollar store doesn't sell we need a grocery store, all the building of houses around here isn't helping Indian head residents but having a grocery store will mean job opportunities for the people of Indian head to make and earn extra money especially for younger generation and they don't have to travel that far to work and we don't have to be inconvenience driving to another grocery store when it could be one in our own community...it's been a long time coming and what the people of Indian Head been wanting for a very long time.

A grocery store in Indian head will attract more residents to our town. It will make the town more appealing to people that work from home (which is a massive chunk of the current work force). This in turn will also generate more tax revenue for the town.

The grocery store would also create more opportunities for employment.

A local grocery store will give Indian head residents easy access to healthy food without leaving the area. Which again generates more revenue for the town.

Opening a grocery store in Indian Head will have positive compounding effects that will help our town in many ways!

Indian Head has not had a grocery store in at least 20 years. The closest grocery store is in Bryan's Road. It's our only choice in this area. I have an Indian Head mailing address and live about 15 minutes away near Nanjemoy. Indian Head would be a closer option to shop. The town of Indian Head needs more commerce. The base has 100's of people that travel through the area every day. They need more choices for lunch or to grab groceries on their way home. The Dollar Store is not a good enough option. They can't offer enough fresh food options. I live closer to the Dollar Store in Marbury. They had a tiny amount of fresh food. When we lost power for a few days in January they lost what they had and have yet to replenish it. We need more options. This part of the county feels like the land that time forgot. We pay out taxes just like the rest of Charles county but we are lacking in support.

Indian Head has such potential to be a beautiful town. Currently, it feels desolate. Nothing thriving. I've lived in Bryans Road since 2004, and my daughter briefly lived in Indian Head with her husband. As a Realtor, I'd like to see more and better options for shopping when presenting Indian Head as a potential home to my clients. It's time for Indian Head to thrive not just survive. A grocery store is a good start. More stores and activities should follow in the upcoming years for families to plant and grow there. It'll offer jobs to the residents of Indian Head as well. I hope the grocery store is a boost for the residents personal and communal moral of positive change on the horizon. As well as incentive for more businesses to launch there.

Being in Bryans Road (only 10 min away from Indian Head), the closest grocery store is Food Lion. There are plenty of days when produce is not fresh in there. For the people actually in Indian Head, they have to travel there or go further up the road (probably 20-25 min) to Giant in Accokeek. They deserve to have something much closer to them and have access to fresh foods.

It is needed! Dollar general is not sufficient. No fresh fruits and vegetables, nothing healthy. Many people have no other alternative due to transportation. Taking public transportation can turn into a whole day affair just to get the food needed. Ridiculous for this to still be happening in Charles County MD in 2022!

As a former resident of Indian Head I have seen growth and development. I don't understand why that progress wouldn't include a local grocery store. For many residents, having to travel 30 minutes or more is less than ideal. A local grocery store is sorely needed if Indian Head is to continue to grow and prosper.

I live on Chicamuxen Road and teach at Parks Elementary. For me, it's closer if we were to drive to Indian Head than having to go all the way to LaPlata or even further just to find decent fresh food options. Usually, to get fresh produce we end up driving even further to get to a Wegmans because the produce in LaPlata and Waldorf aren't even that great.

Having a local option would be soooo wonderful. I've heard from many neighbors, families of students and co-workers who are overjoyed at the idea of Oasis' opening! Please make it happen.

As a former resident of Indian Head (who lived there when there was a grocery store) I understand the vital need of having a grocery store in the town. I not only lived on base (where there was and still is no commissary), but also just outside the base. If rejuvenating Indian Head is a goal, than a grocery store is vital! I am so excited to hear about this endeavor and although I now live in another local community I still have a desire to see Indian Head made into a viable community.

Indian Head could use a boost. Many big chain groceries don't see the benefit of our small community. The people in this area deserve healthy options. there are not many restaurants and many cook at home. Dollar General and Family Dollar are not grocery store and only carry unhealthy options. If a small local grocer wants to come, let them help us with our oasis status. Let's keep our money close and let's slow everyone to benefit from this establishment.

Do you support the creation of a locally owned independent grocery store in the Town of Indian Head?	Yes

If yes, tell us why you support a new Indian Head grocery store (optional):

This sounds like something the area really needs. Excited for a new option that provides a variety of healthy options.
